Independent Auditor's Report

City Council and Mayor City of Butler

We have audited the accompanying modified cash basis financial statements (financial statements) of the governmental activities, the business-type activities, each major fund, and the

aggregate remaining fund information of the City of Butler (City), Pennsylvania, as of and for the year ended December 31, 2017, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 1; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

City Council and Mayor City of Butler Independent Auditor's Report Page 2

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective modified cash basis financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City as of December 31, 2017, and the respective changes in modified cash basis financial position and, where applicable, cash flows thereof, and the respective budgetary comparison for the General Fund and the Liquid Fuels Fund for the year then ended in accordance with the modified cash basis of accounting described in Note 1.

Basis of Accounting

We draw attention to Note 1 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinions are not modified with respect to this matter.

Other Matters

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining nonmajor fund financial statements, combining pension trust fund statements, and the agency funds statement of changes in assets and liabilities are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining nonmajor fund financial statements, combining pension trust fund statements, and the agency funds statement of changes in assets and liabilities are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the

City Council and Mayor City of Butler Independent Auditor's Report Page 3

information is fairly stated in all material respects in relation to the basic financial statements as a whole.

NOTES TO FINANCIAL STATEMENTS (MODIFIED CASH BASIS)

YEAR ENDED DECEMBER 31, 2017

1. Summary of Significant Accounting Policies

A. Reporting Entity

The City of Butler, Pennsylvania (City) is located in Western Pennsylvania, to the north of the City of Pittsburgh. It was incorporated on January 7, 1918, under the provisions of the Commonwealth of Pennsylvania. The City is a third-class city, operated under a Commission form of government. The City provides the following services which are authorized by its charter: public safety (police and fire), highways and streets, health, culture-recreation, public improvements, planning and zoning, parking facilities, and general administrative services.

City of Butler Parks Recreation Grounds and Facilities Authority

The City of Butler Parks Recreation Grounds and Facilities Authority should be included as a component unit of the City as the City guarantees their debt; however, the City concluded it was immaterial to their statements and, therefore, is not included as a component unit in this report.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for services.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from services or privileges provided by a given function or segment and 2) grants that are restricted to meeting the operational or 3) capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported as general revenues.

Separate financial statements are provided for governmental, proprietary, and fiduciary funds even though the latter are excluded from the government-wide financial

NOTES TO FINANCIAL STATEMENTS (MODIFIED CASH BASIS)

YEAR ENDED DECEMBER 31, 2017

statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Within the enterprise fund there are operating and nonoperating revenues and expenses. Operating revenues and expenses are income and expense items incurred through the normal course of business. Nonoperating revenues and expenses are related to income and expense items incurred from activities that do not relate to normal business operations.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Basis of accounting refers to the timing of the recognition of amounts in the financial statements. The City maintains its financial statements on the modified cash basis, including investments, which is a comprehensive basis other than accounting principles generally accepted in the United States of America. Accordingly, amounts are generally recognized when received rather than when earned and when paid rather than when obligations are incurred. Inventories, principally supplies, are accounted for as expenditures when purchased.

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the disbursement of monies are recorded in order to reserve that portion of the applicable appropriation, is employed by the City. However, there were no significant outstanding encumbrances at year-end.

The accounts of the City are organized on the basis of funds, each of which is considered to be a separate accounting entity. The operations of each fund are accounted for by providing a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures or expenses, as appropriate.

The City reports the following major governmental funds:

The *General Fund* is the City's primary operating fund. It accounts for all financial resources of the general government not accounted for and reported in another fund.

The *Capital Projects Fund* is used to account for financial resources to be used for capital outlays, including the acquisition or construction of major capital facilities.

NOTES TO FINANCIAL STATEMENTS (MODIFIED CASH BASIS)

YEAR ENDED DECEMBER 31, 2017

The *Liquid Fuels Fund* is a Special Revenue Fund. It accounts for the state aid receipts used for building and improving roads and bridges.

The Housing Redevelopment Fund accounts for the revolving loan program.

The 2015 Series Bond Fund accounts for the bond proceeds and uses related to the 2015 bond issuance.

The government reports the following major proprietary fund:

The *Parking Fund* is used to account for revenues and expenses incurred to maintain certain parking facilities of the City of Butler.

Additionally, the government reports the following other fund information:

The Other Governmental Fund is comprised of a Special Revenue Fund. The Special Revenue Fund is used to account for the proceeds of specific revenue sources (other than major capital projects) that are restricted to expenditures for specified purposes. The City uses the following Special Revenue Fund: Community Development Block Grant Fund.

The *Pension Trust Funds* account for assets held by the City in a trustee capacity for the future payment of retirement benefits to employees. The City has three separate Pension Trust Funds: Police, Firefighter, and General Employees.

The *Tax Collection Fund* is an agency fund used to account for assets held by the City as an agent for individuals, private organizations, other governments, and/or other funds.

The *Fire Escrow Fund* is an agency fund used to account for amounts collected and held on behalf of residents whose houses have been damaged by fire.

The Father Marinaro Skate Park Fund is an agency fund comprised of donations and used for the skate park.

The *Parks and Recreation Fund* is an agency fund comprised of donations used for park and playground rehabilitation.

NOTES TO FINANCIAL STATEMENTS (MODIFIED CASH BASIS)

YEAR ENDED DECEMBER 31, 2017

The *Shade Tree Commission Fund* is an agency fund comprised of donations and grants to be used for the Shade Tree Commission.

The *Bicycle Fund* is an agency fund comprised of donations to be used for the Bicycle Commission.

D. Interfund Activity in the Government-wide Statements

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the City's governmental activities, business-type activities, and fiduciary funds. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

E. Budgets and Budgetary Accounting

Formal budgetary accounting is employed as a management control in the following funds of the City: General Fund, Capital Projects Fund, and Liquid Fuels Fund. The 2015 Series Bond Fund and the Housing Redevelopment Fund are not legally required to adopt a budget. The budgets are adopted on a modified cash basis, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Budgetary control for certain special receipt funds are maintained through enforcement of the related grant provisions.

The City follows these procedures in establishing the budgetary data reflected in the basic financial statements:

- During August and September, the department heads use current financial status reports to develop financial projections for their programs for the ensuing year, which are then reviewed with the budget staff.
- A proposed operating budget for the fiscal year commencing the following January is submitted to the Council in November.
- The budget is legally advertised giving notice the budget is available for inspection.
- The budget is legally enacted through passage of an ordinance no later than the 31st day of December.

NOTES TO FINANCIAL STATEMENTS (MODIFIED CASH BASIS)

YEAR ENDED DECEMBER 31, 2017

The Council may at any time, by resolution, make supplemental appropriations for any lawful purpose from any funds on hand or estimated to be received within the fiscal year and not otherwise appropriated, including proceeds of any borrowing now or hereafter authorized by law. The Council may authorize the transfer of any unencumbered balance of any appropriation item or any portion thereof. The legal level of required Council approval of budget amendments is the fund level.

During the year, there were no significant supplemental appropriations enacted. Appropriations lapse at the close of the fiscal year to the extent that they have not been expended or encumbered.

There were instances where total disbursements exceeded the budgeted amounts in the General Fund. These overages were funded by available fund balance.

F. Cash and Cash Equivalents

The City considers all investments with maturities of three months or less at the time of purchase to be cash equivalents.

G. Investments

Investments, principally common stocks, mutual funds, and money market funds are carried at fair value. Funds are invested in accordance with the City's investment policy guidelines as described in Note 3.

H. Fair Value Measurements

The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

I. Accumulated Unpaid Sick Pay

In accordance with union contracts, employees are allowed to carryover unused sick days and at termination or retirement will be paid up to a maximum amount based upon a flat rate per day for City employees and a percentage for each day for

NOTES TO FINANCIAL STATEMENTS (MODIFIED CASH BASIS)

YEAR ENDED DECEMBER 31, 2017

firefighters and policemen. As the City's financial statements are prepared on the modified cash basis of accounting, no liability is recorded.

J. Designated Taxes for Debt Service

The City designated 7.5 mills of the real estate tax levy for payment of debt service. During 2017 and prior, the collection of these taxes has been less than debt service payments in the amount of \$1,128,683. Therefore, no amount is restricted for future debt service payments on the statement of net position.

K. Net Position

The government-wide financial statements are required to report three components of net position:

- Net investment in capital assets This component of net position consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets or related debt are also included in this component of net position. If there are significant unspent related debt proceeds or deferred inflows of resources at the end of the reporting period, the portion of the debt or deferred inflows of resources attributable to the unspent amount is not included in the calculation of net investment in capital assets. Instead, that portion of the debt or deferred inflow of resources is included in the same net position component (restricted or unrestricted) as the unspent amount. As the City reports on the modified cash basis, and is not required to record capital assets, this component is not applicable to the City.
- Restricted This component of net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Generally, a liability relates to restricted assets if the asset results from a resource flow that also results in the recognition of a liability or if the liability will be liquidated with the restricted assets. The City has restricted net position of \$285,433, \$173,250, \$528,568, and \$73,525 related to roads and bridges, the revolving loan program, capital projects, and open space lighting, respectively.

NOTES TO FINANCIAL STATEMENTS (MODIFIED CASH BASIS)

YEAR ENDED DECEMBER 31, 2017

 Unrestricted – This component of net position is the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted components of net position.

It is the City's policy to first use restricted net resources prior to the use of unrestricted net resources when an expense is incurred for purposes for which both restricted and unrestricted net resources are available.

L. Fund Balance

In the fund financial statements, governmental funds report fund balance in categories based on the level of restriction placed upon the funds. These levels are as follows:

- Nonspendable This category represents funds that are not in spendable form.
- Restricted This category represents funds that are limited in use due to constraints on purpose and circumstances of spending that are legally enforceable by outside parties. This category includes funds that are legally restricted for roads and bridges, the revolving loan program, capital projects, and open space lighting.
- Committed This category represents funds that are limited in use due to constraints on purpose and circumstances of spending imposed by Council. There was no committed fund balance at December 31, 2017.
- Assigned This category represents intentions of Council to use the funds for specific purposes. Council has delegated the City to assign amounts to be used for specific purposes to the City Clerk. This category includes amounts set aside for capital improvements.
- Unassigned This category includes the residual classification for the City's General Fund and includes all spendable amounts not contained in other classifications.

The City has not established a policy for its use of unrestricted fund balance amounts; therefore, committed amounts should be reduced first, followed by assigned amounts, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

NOTES TO FINANCIAL STATEMENTS (MODIFIED CASH BASIS)

YEAR ENDED DECEMBER 31, 2017

M. Risk

The City is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; and injuries to employees; and natural disasters. Except for workmen's compensation (see Note 10), these risks are covered by commercial insurance purchased from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage for the past three years.

N. Adopted Pronouncement

The requirements of the following Governmental Accounting Standards Boards (GASB) statement were adopted for the City's 2017 financial statements:

GASB Statement No. 80, "Blending Requirements for Certain Component Units – an amendment of GASB Statement No. 14." The objective of this statement is to improve financial reporting by clarifying the financial statement presentation requirements for certain component units.

GASB Statement No. 81, "Irrevocable Split-Interest Agreements." The objective of this statement is to improve accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement.

O. Pending Pronouncements

GASB has issued the following statements that will become effective in future years as shown below. Management has not yet determined the impact of these statements on the City's financial statements:

GASB Statement No. 83, "Certain Asset Retirement Obligations," effective for fiscal years beginning after June 15, 2018 (the City's financial statements for the year ending December 31, 2019). The objective of this statement is to provide financial statement users with information about asset retirement obligations that were not addressed in GASB standards by establishing uniform accounting and financial reporting requirements for these obligations.

GASB Statement No. 84, "Fiduciary Activities," effective for fiscal years beginning after December 15, 2018 (the City's financial statements for the year ending December 31, 2019). The objective of this statement is to improve guidance regarding the

NOTES TO FINANCIAL STATEMENTS (MODIFIED CASH BASIS)

YEAR ENDED DECEMBER 31, 2017

identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported.

GASB Statement No. 85, "Omnibus 2017," effective for fiscal years beginning after June 15, 2017 (the City's financial statements for the year ending December 31, 2018). The objective of this statement is to address practice issues that have been identified during implementation and application of certain GASB Statements. This statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits.

GASB Statement No. 86, "Certain Debt Extinguishment Issues," effective for fiscal years beginning after June 17, 2017 (the City's financial statements for the year ending December 31, 2018). The objective of this statement is to improve consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources—resources other than the proceeds of refunding debt—are placed in an irrevocable trust for the sole purpose of extinguishing debt. This statement also improves accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance.

GASB Statement No. 88, "Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements," effective for fiscal years beginning after June 15, 2018 (the City's financial statements for the year ending December 31, 2019). The objective of this statement is to improve consistency in the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements, and to provide financial statement users with additional essential information about debt.

NOTES TO FINANCIAL STATEMENTS (MODIFIED CASH BASIS)

YEAR ENDED DECEMBER 31, 2017

2. Tax Levies

The taxes levied for 2017 were as follows:

Real estate:	
General purposes	30 mills
Debt service	7.50 mills
Street lighting	3.25 mills
Recreation	2 mills
Library	.5 mills
Per capita tax	\$10
Act 511 residence tax	\$5
Real estate transfer tax	0.5%
Local services tax	\$52
Earned income tax for general purposes	0.5%
Mercantile tax, retail	1.5 mills
Mercantile tax, wholesale	1 mill

The City collects its own real estate taxes and contracts out for the collection of per capita, mercantile, and business privilege taxes.

7 mills

The City's property tax calendar is as follows:

Business privilege tax

March 1 - levy date

March 1 - April 30 - 2% discount period
May 1 - June 30 - face payment period
July 1 - January 1 of following year - 10% penalty period

Real estate taxes attached as an enforceable lien on property as of January 1 and are levied on March 1. Butler County bills these taxes. Butler County collects delinquent real estate taxes for the City.

The City is permitted by the 3rd Class City Code of Pennsylvania to levy real estate taxes up to 25 mills on every dollar of assessed valuation for general City purposes. In 2010, City real estate taxes were levied for general purposes at 30 mills, with court approval, on 100% of assessed valuation.

NOTES TO FINANCIAL STATEMENTS (MODIFIED CASH BASIS)

YEAR ENDED DECEMBER 31, 2017

3. Deposits and Investments

Pennsylvania statutes provide for investment of governmental funds into certain authorized investment types including U.S. Treasury bills, other short-term U.S. government obligations, short-term commercial paper issued by a public corporation, banker's acceptances, insured or collateralized time deposits, and certificates of deposit. The statutes also allow pooling of governmental funds for investment purposes.

In addition to the investments authorized for governmental funds, fiduciary fund investments may also be made in corporate stocks and bonds, real estate, and other investments consistent with sound business practice.

The deposit and investment policy of the City adheres to state statutes. Deposits of the governmental and proprietary funds are either maintained in demand deposits or invested in pools of government securities through a local bank's sweep account. There were no deposit or investment transactions during the year that were in violation of either the state statutes or the policy of the City.

<u>Deposits</u>

The following is a description of the City's deposit risks:

Custodial Credit Risk - For a deposit, custodial credit risk is the risk that in the event of a bank failure, the City's deposits may not be returned to it. The City does not have a formal deposit policy for custodial credit risk.

As of December 31, 2017, \$608,937 of the City's \$1,648,499 bank balance was insured by the Federal Deposit Insurance Corporation (FDIC). The remaining bank balance of \$1,039,562 was exposed to custodial credit risk, which is collateralized in accordance with Act 72 of the Pennsylvania state legislature, which requires the institution to pool collateral for all governmental deposits and have the collateral held by an approved custodian in the institution's name. These deposits have carrying amounts of \$1,589,177 as of December 31, 2017.

NOTES TO FINANCIAL STATEMENTS (MODIFIED CASH BASIS)

YEAR ENDED DECEMBER 31, 2017

As of December 31, 2017, the City held the following investment balances in their Enterprise Fund:

			Maturity in Years						
	Fair			Less	1-5 years				lore than
	Ma	rket Value	than 1 year				5 years		
U.S. government obligations	\$	116,703	\$		\$			\$	116,703
Sweep account Total investments reported on statement		110,872							
of net position (modified cash basis)	\$	227,575							

U.S. government obligations are valued using quoted market prices (Level 1 inputs).

The following is a description of the City's investment risks:

Custodial Credit Risk. For an investment, custodial credit risk is the risk that in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside entity. The City does not have a formal investment policy for custodial credit risk. The City's certificates of deposit and U.S. government obligations are all underlying securities held by the investment's counterparty, not in the Enterprise Fund's name. These amounts are not insured by the FDIC, nor are they collateralized in accordance with Act 72 of the Pennsylvania state legislature, which requires the institution to pool collateral for all governmental deposits and have the collateral held by an approved custodian in the institution's name. The fair value of these investments is the same as their carrying amount.

Interest Rate Risk. The City does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk. The City has no formal investment policy that would limit its investment choices based on credit ratings by nationally recognized statistical rating organizations. As of December 31, 2017, the City's investments in U.S. government obligations are rated BBB by Standard & Poor's.

NOTES TO FINANCIAL STATEMENTS (MODIFIED CASH BASIS)

YEAR ENDED DECEMBER 31, 2017

Pension Trust Funds

The pension trust funds' investments are held separately from those of other City funds. Assets in the pension trust funds are stated at fair value. The City maintains investment policies that summarize the investment philosophy of the City and establishes investment guidelines and performance objectives for the Police, Firefighter, and General Employees Pension Plans.

As of December 31, 2017, the City had the following cash and investments in its pension trust funds:

		Investment Maturities from December 31, 2017				
Cash or	Fair	Less than	1-5		6-10	More than
Investment Type	 Value	1 year	Years		Years	10 years
Debt Securities:

Total cash equivalents and other investments	 28,461,705					
Total cash equivalents and investments						
reported on statement of fiduciary net						
position (modified cash basis) - pension trust funds	\$ 38,892,157					

NOTES TO FINANCIAL STATEMENTS (MODIFIED CASH BASIS)

YEAR ENDED DECEMBER 31, 2017

U.S. Government Securities, money markets, mutual funds, and equities are valued using quoted market prices (Level 1 inputs). Corporate bonds are valued using matrix pricing model (Level 2 inputs).

The following is a description of the pension trust funds' deposit and investment risks:

Credit Risk – The risk that an issuer or other counterparty to an investment will not fulfill its obligations is called credit risk. The pension trust funds have no formal investment policy that would limit its investment choices based on credit ratings by nationally recognized statistical rating organizations. As of December 31, 2017, the City's investments are not rated or rated AAA by Standard & Poor's.

Custodial Credit Risk — For deposits and investments, custodial credit risk is the risk that in the event of the failure of the bank or counterparty, the pension trust funds will not be able to recover the value of their deposits or investments or collateral securities that are in the possession of an outside entity. The pension trust funds do not have a formal deposit or investment policy for custodial credit risk. The City's investments in mutual funds cannot be classified by risk category because they are not evidenced by securities that exist in physical or book entry form. As of December 31, 2017, \$528,012 (bank and book balance) of the City's pension cash equivalents balance was exposed to custodial credit risk.

Concentration of Credit Risk – The City places no limit on the amount the City may invest in any one issuer. There were no investments in the Police, Firefighter, or General Employees Pension Plans that constituted more than 5% of any of the plan net position available for benefits at December 31, 2017 required for disclosure. In addition, the plans did not have any investment transactions with related parties during the year.

Interest Rate Risk — The pension trust funds do not have a formal deposit or investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Agency Fund

The City maintains bank accounts for the escrowed funds. As of December 31, 2017, the book balance was \$409,530 and bank balance was \$409,687. Of this bank balance, \$294,620 is insured by the FDIC and \$115,067 is uninsured, which is collateralized in accordance with Act 72 of the Pennsylvania state legislature, which requires the institution

NOTES TO FINANCIAL STATEMENTS (MODIFIED CASH BASIS)

YEAR ENDED DECEMBER 31, 2017

to pool collateral for all governmental deposits and have the collateral held by an approved custodian in the institution's name. The carrying amount of this balance was \$409,530.

4. Revolving Loan

In 2011, the City received a Housing and Redevelopment Assistance Program Grant from the Commonwealth of Pennsylvania Department of Community and Economic Development in the amount of \$466,049. The grant was used to provide a revolving loan to a local small business to pay for the renovation of two buildings in the City. The loan is secured by the properties of the borrower and bears interest at a rate of 1.75%. Interest payments began in June 2011 and were paid monthly to the City through the completion of construction, or June 2013. Monthly payments of \$2,946 began in July 2013 and will continue through the maturity date of June 2026. The outstanding balance on the loan at December 31, 2017 was \$338,824. As the City's financial statements are prepared on the modified cash basis of accounting, a loan receivable is not recorded.

The schedule of future payments to be received for the loan is as follows:

	F	Principal	Interest		Total
2018	\$	29,611	\$	5,738	\$ 35,349
2019		30,133		5,216	35,349
2020		30,663		4,685	35,348
2021		31,204		4,145	35,349
2022		31,753		3,595	35348
Thereafter		185,460		8,114	 193,574
	\$	338,824	\$	31,493	\$ 370,317

5. Long-Term Debt

General Obligation Bonds 2005 Series

In December 2005, the City advance refunded the 1996 Series which were issued to refund the Series of 1993 General Obligation Bonds and to provide funds for capital projects. Total debt issued was \$2,990,000. The bonds are secured by the full faith, credit, and taxing power of the City. The 2005 General Obligation Bonds bear interest at rates ranging from 3.5%-4.125% and are payable annually through March 1, 2023.

NOTES TO FINANCIAL STATEMENTS (MODIFIED CASH BASIS)

YEAR ENDED DECEMBER 31, 2017

General Obligation Note 2010 Series

In April 2010, the City issued a General Obligation Note for \$400,000 to purchase a pumper truck for the fire department. This General Obligation Note bears interest at a rate of 3.73%, with an annual principal and interest payment of \$47,984 payable through December 2019. During 2011, the City made an additional principal payment of \$77,016. As a result of the reduction, the General Obligation Note is now payable through early 2018. The Redevelopment Authority of the City of Butler has pledged they will make the annual debt service payment.

General Obligation Bond 2015 Series

In October 2015, the City issued bonds totaling \$6,800,000 to be used to provide the City with the funds required for various capital projects of the City, to refund the Parking Authority of the City of Butler Guaranteed Parking System Revenue Bonds, Series of 2003 and Series of 2005, and to pay all costs and expenses incurred by the City in connection with the issuance and sale of the Bonds. The bonds are \$6,235,000 nontaxable and \$565,000 taxable and are secured by the full faith, credit, and taxing power of the City. The 2015 General Obligation Bonds bear interest at rates ranging from 1.55%-4.0% and are payable annually through December 1, 2040.

General Obligation Note 2016 Series

In August 2016, the City issued a General Obligation Note for \$210,000 to be used for street paving purposes. This General Obligation Note bears interest at a rate of 1.62%, with an annual principal payment of \$105,000. The note was paid in full in 2017.

General Obligation Note 2017 Series

In March 2017, the City issued a General Obligation Note for \$390,000 to be used for storm sewer repairs, traffic signal upgrades, and a flood control project. This General Obligation Note bears interest at a rate of 1.8%, with an annual principal payment of \$195,000 payable through December 2018.

Tax Anticipation Note

In January 2017, the City obtained a tax anticipation note in the amount of \$1,000,000. Note proceeds were used for general operating expenses in anticipation of current year tax revenues in 2017. The tax anticipation note was paid in full as of December 31, 2017.

NOTES TO FINANCIAL STATEMENTS (MODIFIED CASH BASIS)

During 2017, S&P Global Ratings lowered the City's bond rating to B from BB+.

6. Pension Plans

Plan Descriptions

The City's Police, Firefighter, and General Employees Retirement Systems (Plans) are single-employer defined benefit pension plans governed by the Municipal Pension Plan Funding

NOTES TO FINANCIAL STATEMENTS (MODIFIED CASH BASIS)

YEAR ENDED DECEMBER 31, 2017

Standard Recovery Act (Act 205 of 1984) enacted by the General Assembly of the Commonwealth of Pennsylvania. The Plans are governed by the City's Council which has delegated the authority to manage certain Plan assets to the City Mayor. Plan provisions and contribution requirements are established and may be amended by the City. The Plans are reported as the Pension Trust Funds in the accompanying financial statements. The Plans do not issue separate reports.

All City employees become plan participants immediately upon becoming an employee.

All firefighters who retire on or after January 1, 2000, and who receive a pension benefit shall receive an annual cost of living adjustment of four percent payable upon the anniversary of their retirement, provided that the adjustment does not result in their pension benefit exceeding 50% of the base wage paid to the highest ranking firefighter within the firefighter's collective bargaining unit.

Summary of Significant Accounting Policies

Financial information of the City's Plans is presented on the modified cash basis of accounting, including investments. Employer contributions to each plan are recognized when paid. Benefits and refunds are recognized when paid in accordance with the terms of the individual plan.

Investments of the Plans are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on national exchanges are valued at the last reported sales price.

Contributions and Funding Policy

The Plans are funded by the City on an annual basis pursuant to the provisions of Act 205 of 1984. Act 205 of 1984 requires that annual contributions be based upon the calculation of the Minimum Municipal Obligation (MMO). The MMO calculation is based upon the biennial actuarial valuation. Employees are not required to contribute under Act 205 of 1984; such contributions are subject to collective bargaining. The Commonwealth of Pennsylvania allocates certain funds to assist in pension funding. Any financial requirement established by the MMO that exceeds the Commonwealth of Pennsylvania allocation must be funded by the City.

In 2017, the Police were required to contribute 5% and the Firefighters were required to contribute 3% of monthly pay (excluding overtime) to the pension plan. The contribution

NOTES TO FINANCIAL STATEMENTS (MODIFIED CASH BASIS)

YEAR ENDED DECEMBER 31, 2017

rate was 5% of monthly pay for the General Employees Plan. The MMOs for the Police, Firefighter, and General Employees Plans were \$175,281, \$149,190, and \$28,472, respectively. The Police, Firefighter, and General Employees MMOs were fully paid with the Commonwealth of Pennsylvania allocation. In excess of the MMO, the City paid \$23,855, \$31,104, and \$10,590 into the Police, Firefighter, and General Employees Plans, respectively, with the Commonwealth of Pennsylvania allocation. In addition to the state aid, the City contributed \$13,624 to the Firefighter Plan as of December 31, 2017.

Administrative costs, including investment, custodial trustee, and actuarial services are charged to the appropriate plan and funded from investment earnings and contributions.

The City's funded status and related information for each Plan as of the latest actuarial valuation date, January 1, 2017, is as follows:

		Actuarial	Excess of			Excess
	Actuarial	Accrued	Assets			(Deficiency)
Actuarial	Value of	Liability (AAL)	Over (Under)	Funded	Covered	as a % of Covered
Valuation	Assets	Entry Age	AAL	Ratio	Payroll	Payroll
Police:	\$ 12,893,472	\$ 13,133,788	\$ (240,316)	98.17%	\$ 1,519,813	-15.81%
Firefighter:	17,908,086	17,682,249	225,837	101.28%	1,283,970	17.59%
General Employees:	6,249,924	5,549,689	700,235	112.62%	998,661	70.12%

Actuarial assumptions - The actuarially accrued liability for the three Plans was determined by an actuarial valuation performed on January 1, 2017 using the following actuarial assumptions, applied to all periods in the measurement:

	Firefighter Plan	Police Plan	General Employees Plan
Actuarial cost method	Entry Age Normal	Entry Age Normal	Entry Age Normal
Actuarial assumptions:			
Investment rate of return	7.25%	7.25%	7.25%
Projected salary increases	4.50%	4.50%	4.50%
Underlying inflation rate	2.75%	2.75%	2.75%
Cost-of-living adjustment	4.00%	n/a	n/a

Actuarial assumptions based on actuarial experience study for the period January 1, 2015 to December 31, 2016.

The three plans: RP-2000 Combined Healthy Mortality Table with Blue Collar Adjustment, with rates set forward 7 years for disabled members.

NOTES TO FINANCIAL STATEMENTS (MODIFIED CASH BASIS)

YEAR ENDED DECEMBER 31, 2017

Changes in Actuarial Assumptions – Changes in actuarial assumptions from the previous report dated January 1, 2015 include a decrease in the long-term assumption of inflation from 3.0% to 2.75% per year and a decreased interest rate assumption from 7.5% to 7.25% per year.

Investment Policy – The Plans' policies in regard to the allocation of invested assets are established and may be amended by City Council. It is the policy of City Council to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes.

Long-Term Expected Rate of Return — The long-term expected rate of return on Plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The following was the asset allocation policy for each major asset class included in the Plans' target asset allocation as of December 31, 2017:

	Target Allocation							
Asset Class	Firefighter Plan	Police Plan	General Employees Plan					
Equities	50-70%	50-70%	50-70%					
Fixed income	30-45%	30-45%	30-45%					
Cash and cash equivalents	0-15%	0-15%	0-15%					

7. Post-Employment Health Care and Life Benefits

In addition to the pension benefits described above, the City permits all retirees to enroll in a post-retirement group life insurance plan, provided that such retirees pay the conversion rate to maintain life insurance coverage. Additionally, retiring police officers and firefighters are permitted to remain in the City's group health insurance plan, provided they pay 100 percent of their premium. In the event that the City's insurance carrier determines that such enrollment is no longer permitted, the City would be required to establish a separate group health plan for any affected police officer. If the premium for the police retiree plan is greater than that of the active duty plan, the City must pay, for a period of

NOTES TO FINANCIAL STATEMENTS (MODIFIED CASH BASIS)

YEAR ENDED DECEMBER 31, 2017

twelve months, an amount equal to and not to exceed 50 percent of the difference in the premium for the active duty plan and the police retiree group plan. This provision applies only to retired police officers as memorialized in a collective bargaining agreement, and no retiree is permitted to remain in the City's active duty health plan upon reaching age 65. As of December 31, 2017, no retirees were enrolled in the City's group health insurance plan and 27 retirees were enrolled in the City's group life insurance plan.

8. Capital Lease

In October 2016, the City entered into a five-year capital lease agreement for equipment for \$107,500, with annual payments of \$23,259. The City has the option to purchase the equipment at the end of the agreement for \$1.

The annual amounts of principal payments required on the capital lease agreement are as follows:

	Principal				
2018	\$	20,924			
2019		21,485			
2020		22,061			
2021		22,652			
	\$	87,122			

9. Commitments and Contingencies

Grant Programs

The City participates in state and federally assisted grant programs. These programs are subject to program compliance audits by the grantors or their representatives. The City is potentially liable for any disbursements that may be disallowed, pursuant to the terms of these grant programs.

NOTES TO FINANCIAL STATEMENTS (MODIFIED CASH BASIS)

YEAR ENDED DECEMBER 31, 2017

Litigation

In the normal course of operations, the City is involved in various civil and legal disputes. Management of the City believes that any outcome resulting from these actions would not have a material effect on the City's financial position.

10. Risk Financing

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. These risks are covered by commercial insurance purchased from independent third parties. Settled claims from these risks have not exceeded commercial insurance coverage for the past three years. There were no significant reductions in insurance coverage from coverage in the prior year.

For its workers' compensation insurance coverage, the City participates in the Municipal Risk Management Worker's Compensation Pooled Trust (Trust), a public entity risk pool operated for the benefit of 247 cities, municipalities, boroughs, townships, and municipal authorities. Trust underwriting and rate-setting policies are established after consultation with an independent actuary and certain approvals of the Pennsylvania Department of Labor and Industry as mandated by Act 44 of 1993 (Act 44). All Trust participants may be subject to a supplemental assessment/dividend based on the overall experience of the participants, pursuant to Act 44. Dividends received in 2017 were \$119,688. participant of the Trust agrees to jointly and severally assume and discharge the liabilities arising under the Workers' Compensation Act and Occupational Disease Act of each and every participant of the Trust. Settled claims from these risks have not exceeded commercial insurance coverage for the past three years the Trust purchased excess insurance coverage with statutory limits. The retention for this excess coverage is \$750,000 per occurrence. There were no significant reductions in insurance coverage from coverage in the prior year. Political subdivisions joining the Trust must remain members for a minimum of four years; a member may withdraw from the Trust after that time by giving ninety days' notice, subject to approval by the Trust actuary under specified circumstances related to the continued fiscal stability of the pool. At the time of withdrawal, the participant is responsible for their share of assessments but has no claim on any assets of the Trust. Estimates of any additional assessments are unknown.

The City participates as a member in Municipal Employers Insurance Trust (d/b/a Municipal Benefit Services (MBS)), a public entity risk pool. MBS provides certain benefits including but not limited to, the following coverages: health benefits, short-term accident and

NOTES TO FINANCIAL STATEMENTS (MODIFIED CASH BASIS)

YEAR ENDED DECEMBER 31, 2017

sickness disability benefits, long-term accident and sickness disability benefits, dental benefits, vision care, prescription drugs, and life insurance for those eligible employers. All participants of MBS may be subject to supplemental premiums based on the overall experience of the participating members. Reserves generated by MBS for self-insured health premiums paid by members exceeding claims and expenses are held by MBS for the benefit of all participating members. Starting in 2015, a portion of the excess reserves were deposited in eligible clients' Rate Mitigation Accounts (RMA) as determined by the MBS's actuary. RMA funds are held by MBS and are available to the City to reduce future costs associate with participating coverage. RMA funds are forfeited if the member terminates participation in the MBS medical insurance program.

11. Tax Increment Financing

Pursuant to the Pennsylvania Tax Increment Financing Act, as amended (TIF Act), The Redevelopment Authority of the City of Butler (Authority) has created a tax increment district denominated the Butler City "Centre City" Tax Increment Financing (TIF) District (TIF District). As required by the TIF Act, the Authority prepared a tax increment financing plan (TIF Plan) for the design, construction, relocation, and widening/repaving of streets and alleyways, design and rebuilding of curbs, walls, and sidewalks, relocation and installation of public utilities, installation of new street lighting, and design and installation of new signage, creation and installation of new landscape areas, and installation of seating areas and walking/biking accommodations within the proposed TIF District. The Authority has entered into an intergovernmental cooperation agreement for the 20-year period of the TIF District with the City, Butler County, and the Butler Area School District for the purpose of financing the public improvements and other costs associated with the Centre City Project. Beginning in 2017, the City serves solely as a pass-through entity for the increment funds collected related to the TIF District, and, as such, the activity is reported as an agency fund in the accompanying financial statements.

12. Subsequent Events

In December 2017, the City authorized the issuance of Tax Revenue Anticipation Note Series 2018 with a local bank in the amount of \$1,000,000 with an interest rate of 1.99%.

As of March 2018, the City has withdrawn as a member municipality of the Butler Transit Authority and authorized an amendment to the Articles of Incorporation.

NOTES TO FINANCIAL STATEMENTS (MODIFIED CASH BASIS)

YEAR ENDED DECEMBER 31, 2017

In April 2018, the City authorized the issuance of a General Obligation Note with a local bank in the amount of \$200,000 with an interest rate of 3.29%.

In 2018, it was determined that the City owed approximately \$149,000 to a former employee and a vendor for overpayment. As the City reports on the modified cash basis of accounting, no amounts related to 2017 have been recognized in the financial statements.

13. Liquidity

The City has fund balance of the General Fund of \$291,417 at December 31, 2017. Management is aware of the current financial condition of the City and will continue to closely monitor cash flow and look for ways to decrease operating costs and increase revenue.
