April Public Announcement - Municipal Separate Storm Sewer System (MS4)

As part of an ongoing education plan, we would like to remind local residents that when walking your pet, remember to pick up the waste and dispose of it properly. Flushing pet waste is the best disposal method. Leaving the waste on the ground increases public health risks by allowing harmful bacteria and nutrients to wash into storm drains and eventually into the local streams.

Also, if you plan on washing your vehicle, use a commercial car wash if possible. Car washes are setup to treat or recycle the wastewater. If you want to wash your vehicle, pull the car onto a lawn area to wash it. This way, all of the soap and water will infiltrate into the ground. Try not to wash the car on a paved surface as all the runoff will flow onto the street and into a nearby storm sewer. Soaps, wax and other chemicals used to clean cars are toxic to fish and aquatic organisms.

- **ANNOUNCEMENTS**

- First Responder Light Up Night – Saturday, April 24th
